

January 6, 1961

Emery Canal and Reservoir  
Emery, Utah

Independent Canal and Reservoir  
Ferron, Utah

Mr. Homer Edwards, Commissioner  
Moore, Utah

Gentlemen:

Re: Muddy Creek Distribution System

A meeting of the water users of the Muddy Creek Distribution System will be held in the Town Hall of ~~Kemery~~, Utah, January 18, 1961, 10:00 a.m.

At this meeting, we hope to firm up the distribution of the Muddy Creek System for the coming irrigation season. Some of the items which we should discuss at this meeting are:

1. Establishing a method of assessment, whereby the cost of our operations will be handled;
2. Preparing a budget;
3. Selecting a suitable candidate for Commissioner, that he may be appointed by the State Engineer;
4. Discussion of any other problems which you may have at this time.

Prior to this meeting, we sincerely hope that all water users can get together to discuss their common problems. From this meeting they could then recommend to us a workable budget, a candidate for Commissioner, and a suitable distribution program.

We sincerely hope all who are interested will be in attendance, that they may represent their interests.

Very truly yours,

Donald C. Norseth,  
Distribution Engineer
